Detailed Action

Response to Amendment

1. Applicant's Remarks/Arguments filed on 10/22/2007 regarding claims 1-4, 6-15, 17-26, 28-48 have been fully considered. Claims 5, 16, 27 have been cancelled by applicant. Claims 1-4, 6-15, 17-26, 28-48 are currently pending.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The present application relates to providing a method and system for queuing traffic in a gateway for a mobile device according to one of the class of service queues in a wireless communications environment, including the unique functions of:

“altering an association of the class of service queues for the mobile service from a first sector to a second sector comprises:

deleting an object link corresponding to the mobile device from a first sector object list in the gateway; and

creating an object link corresponding to the mobile device in a second sector object list in the gateway;

holding post-sector-change packets for the mobile device temporarily in a buffer in the gateway until pre-sector-change packets have been emptied from the class of service queues in the gateway.”

The closest prior art, Satt et al. (US Publication 2004/0248583), discloses a system and method for allocating bandwidth resources to different service classes of traffic flows to mobile stations in different cells/sectors. However, Satt fails to anticipate or render obvious the above quoted limitations of the present application. This renders the claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
